Museum Mall

The shops of the world's museums, in one place.

FACT SHEET · OCTOBER 2026

1,691	73	435,832	120,691
museum shops connected	countries	objects on sale	museums in the world index

What it is

Museum Mall is a marketplace for museum shops. Buyers search objects chosen by museum buyers across the world, pay once for objects from several museums, and receive each parcel directly from the museum. Museum Mall Editions adds art prints of public-domain masterpieces, made to order near the buyer in the European Union, the United Kingdom or the United States.

Why it matters

- Museum shops fund collections, education and conservation, but most sell only to people who visit in person.
- Partner museums keep at least 88 percent of every item price and the whole delivery fee, paid weekly.
- Any museum or rights holder can have material removed within twenty-four hours.

For buyers

- One basket across museums, prices in the buyer's currency, seven languages.
- A gift finder: describe the person, receive real objects from real museums.
- Fourteen-day right of withdrawal; card or bank transfer.

Museum Mall is operated by Hazel Tree Consulting, Porto, Portugal. Figures read from the live catalogue on 22 October 2026.
